history

Good design starts with art and art is reflection of the soul on the design. We are adding little nuances of art and beauty to designs, the nature of which is about purity. We are deriving inspiration from the past, and projecting it into the future. Directing strong emphasis of the modern approach into a brand new dimension, we add more value to the design.

While adding a new touch to the well-known and timeless lines, we are creating highly energetic spaces deriving inspiration from today for the future. We are combining simplicity and aesthetics in our bathroom sets in a way to evoke luxurious, smart and modern feelings.

ROMA

Choosing to be out of the cast...

This special set inspired from the empire's artful ritual of cleansing and detoxing was designed as a modern interpretation of Rome, one of the most important symbols of prosperity and aesthetics.

The collection blends past with the new millennium's futuristic world. The design resembling past and enriched by smooth transitions also takes you to an incredible journey. Taking its name from the city of Rome, interpreted in a modern style and with an aesthetics pertaining to Rome, the front edge of the washbasin is comprised of a bow rather than a flat line.

The collection has a 65, 85 and 95 cm range of washbasins endowed with cabinets. The set carries a certain value from past to our modern day. The set has tanks and cabinets of varying sizes. The 75 cm model of the set has an asymmetrical design.
